Oscar de la Renta | *A Fashionable Fête*

Jackie Armour

Adored for his elegant yet spirited take on women's wear, the late designer Oscar de la Renta would often host intimate dinner parties and philanthropic luncheons for the who's who of the fashion world. Keeping with his love of bold colors and effortless play on patterns, Jackie Armour of JMA Interior Design crafted a tasteful table that incorporates various gold elements and pink and purple hues. A centerpiece of carnations (a common de la Renta motif) and other accent flowers create a vibrant ombre effect that pops against the plum linen napkins from Le Jacquard Français and gold-mesh flower rings by Deborah Rhodes. The gold charger plates from Atlas Event Rental form a cosmopolitan canvas for the Wedgwood Runnymede dinner plates and Seville salad plates, which are flanked by vintage Larry Laslo flatware for a final golden touch. *JMA Interior Design, Jupiter (561-743-9668, jma-ids.com)*
