# OPEN Minded

Coming from a downtown penthouse, a Chicago couple with a penchant for entertaining was yearning to sprawl out in their new golf community home in Jupiter. Helping them to embrace an open concept that combined the great room with the kitchen and dining area, Jackie Armour of **JMA Interior Design** composed a modern casual vibe to play off the abundant natural light.

“The wood built-ins and millwork soft-

ten the streamlined furniture and the room’s tailored style,” she says. “We also selected a soft tone for the walls, which helped to enhance the garden views.”

While the honed marble floors merge into the backdrop, the Carrara marble coffee table and wood elements deliver depth and contrast. The rug, which a Jack Walsh Trade representative brought over on a whim, adds warmth to the crisp interior.

“This rug grounds the living room,” says Armour. “The color is mesmerizing. It’s almost chameleon-like because it varies from soft blue to soft blue-green, adapting to its surroundings. I knew it would perfectly balance the furnishings and surfaces.” *Jupiter (jmainteriordesign.com)*
